

**Revive Church**  
Passionately Pursuing Jesus

To Whom It May Concern,

It's a privilege to share my support for Better Living Water (BLW) and the amazing work they're doing. Our church has seen firsthand how BLW has helped several of our partner ministries install water filtration systems in Africa, bringing safe, clean water to communities that need it most.

What I appreciate most about BLW is that they care for both the physical and spiritual needs of the people they serve. Their team doesn't just bring technology—they bring hope in Christ. They work alongside local pastors, teaching biblical farming methods and helping communities build a stronger foundation for the future.

I love that BLW only goes where they're invited by local pastors and/or community leaders. That kind of humility and partnership shows their heart to serve, not just to do projects. It's clear that their goal is long-term transformation, not quick fixes. We have seen the fruit of this ministry both in our partnership in areas of Honduras and West Africa.

As they prepare for the opportunities ahead, I have full confidence that God will use them in powerful ways to bless and equip the people they serve. I'm grateful for their partnership in the gospel and excited to see how the Lord continues to work through them.

With appreciation,

Pastor Nate Miller
