

To Whom It May Concern,

*BLWM* (Better Living Water Ministry) has shown an amazing commitment in helping pastors and churches meet the needs of their communities such as clean water, food, healthcare and spiritual wellbeing. Dale Kuklok, the founder, has shown a unique ability to connect with similar non-profits by effectively working with them in meeting the needs of third world communities.

I work with *T-Net* (Training Network) *International* to develop effective Christian leadership in the third world. We have over 10,000 pastors currently being trained in African and Asian nations to carry out the Great Commission of Jesus Christ to make disciples. *T-Net* has begun to work with *BLWM* by using the training provided through *Farming God's Way*. We see this as essential in helping the pastors in *T-Net* training, many who are subsistence farmers, have greater production in their farming. This provides the pastors with needed income and the ability to train their church members in becoming better farmers.

*BLWM* has connected with T-Net students in Liberia and Dale is planning to travel to Liberia to begin the above training with T-Net pastors. I highly recommend that you consider *BLWM* and *Farming God's Way* for financial support. With your financial help, you can be part of something that not only will meet the physical needs of the churches in the third world but help the churches in those countries to be more effective in reaching people for Christ.

Thank you for your consideration.

*Dr. Richard J. Ensrud*

T-Net International African Continent Director
